

The logo for Resol features a stylized 'R' composed of three parallel diagonal lines in shades of blue and teal. To the right of this symbol, the word 'Resol' is written in a bold, black, sans-serif typeface.

Resol

Live your space

Providing life to the spaces of today's people

That is our aim.

Inspiration

We have a whole universe at our fingertips, which every day inspires us to go further. We study our surroundings, and we learn from the differences to create our own experiences

Responsibility

We quickly learn to know what we like. And we naturally struggle and strive to achieve it and preserve it.

Freedom

Of course. Thus we keep growing. Shaping our own character - personal, genuine...

**What makes us unique is our lifestyle,
our own way of enjoying our space.**

The world is full of possibilities

Resol

Live your space

Company

Over 55 years
producing quality furniture

Since we were founded in 1961, we have become a leader in the plastic transformation sector, with over 50 million chairs sold.

A turnover of over 36 million euros, with distribution in more than 110 countries.

40,000m² facilities, always at the forefront of cutting-edge technology for our production processes.

Our Knowhow

Why us?

Client vision

Throughout our production chain, quality is our top priority, and this translates into the loyalty of our clients, who currently number over 2,000. We also have important accounts who place their trust in our company year after year.

The Resol projects division actively participates in some of the most notable projects for our clients **Adif, Renfe, Estrella Damm and Heineken**, as well as in projects for the most prestigious hotel chains, not forgetting multinationals such as **McDonald's** or **Starbucks**.

Our Knowhow Why us?

#GreenThinking

We present our #GreenThinking department

#GreenThinking is the Resol project that works to continue developing new processes in terms of sustainability.

Our products are 100% recyclable.

We design and produce meeting the strictest polices on quality control and ecological responsibility.

We accept our Ecofriendly commitment and we work in line with the 17 Sustainable Development Goals proposed by the United Nations.

But #GreenThinking goes much further...

Sustainability policy

Our Knowhow

Why us?

Our aim is to eliminate new plastic in all our factories and exchange it for **post-consumer recycled plastic**.

This is how the new Green Edition range came to be, a range that will allow us to leave behind new plastic.

Under the new Green Edition range, you'll find some of our best designs, produced using post-consumer recycled material injection techniques.

GRITEK[®] formula

We use the new GRITEK formula, a high-quality post-consumer recycled polypropylene that will enable you to offer your clients a new range of sustainable products that maintain design and the maximum quality guarantee, with the same characteristics as the models produced using new plastic.
